CLASS 11 LESSON PLAN

Creating Sustainable Digital Collections, Part 2: Digital Preservation

Learning Objectives

After this lesson, students will be able to:

- Demonstrate awareness of the basic concepts, as well as complex issues associated with digital preservation.
- Discuss different digital preservation strategies and which strategies are appropriate for certain kinds of digital objects.
- Understand the different standards that serve as foundations for further digital preservation research and learning.
- Understand tools and technologies in use (and in development) to support the preservation of digital collections and objects over time.
