

Manage your disaster readiness at [dplan.org](http://dplan.org)

**dPlan|ArtsReady is a comprehensive online tool for disaster preparedness and response.**

**Utilize it in planning emergency procedures or as a centralized location for essential information, ensuring your team has immediate access when needed.**

### **Pocket Response Resource (PRR)**

Use this free, two-page customizable template for immediate access to emergency contact information and response actions.

Create an account and download the PRR at [dplan.org](http://dplan.org).

### **dPlan|ArtsReady**

Progress through five modules to advance your emergency planning from risk assessment and action items to secure storage for critical documentation and printed reports.

- **Risk Assessment:** 90 questions across 9 Critical Areas of preparedness
- **Action Items:** Create and assign preparedness tasks and deadlines
- **Critical Stuff:** Save all your critical documentation in the Cloud
- **Guides and Resources:** A curated library of annotated resources, links, and tools for preparedness and response
- **Reports:** Populate 10 important reports to export as CSV or PDF

Purchase an annual subscription for \$4.95/month. Multiple users can be added to one account with varying levels of access. Groups and consortia receive a 10% discount for 3 or more accounts and can pay for subscriptions on behalf of members.

**Risk Assessment:**  
90 questions across 9  
critical areas of  
preparedness

The screenshot shows the 'Risk Assessment' dashboard. On the left, a sidebar lists critical areas: Collections and Assets, Communication, Community, Facilities, Finance, IT, People, Programs, and Training/Drills. The main area displays 'Collections and Assets' with three assessment questions. A red box highlights the 'Risk Level' and 'Readiness' dropdown menus. An arrow points from this box to the first question: 'Your most valuable assets (artwork, collections, equipment, costumes/inventory) are stored in such a way as to minimize theft and damage from water.' Below the question, there are dropdowns for 'Risk Level' (set to Moderate) and 'Readiness' (set to Unknown), a text input field, and an 'Add Action Item' button.

The 'Add an Action Item' form includes the following fields:
 

- Title:
- Description:
- Priority:
- Critical Area:
- Due Date: A calendar view for May 2024.
- Assigned To:

 A 'Create Action Item' button is at the bottom.

**Action Items:**  
Create and assign  
preparedness tasks and  
deadlines

The screenshot shows the 'Action Items' dashboard. On the left, a sidebar lists critical areas: All, Collections and Assets, Communication, Community, Facilities, People, and Training/Drills. The main area displays a list of action items. A red arrow points to the 'Add Action Item' button. The detailed view for the task 'ID all water pipes/lines' shows:
 

- Critical Area: Collections and Assets
- Created: December 29, 2023
- Priority: Critical
- Status: Incomplete
- Assigned To: Raymond West
- Created By: Ann Marie Willer
- Due Date: February 27, 2024
- Description: Unknown action
- Progress Log:  Update
